

THE KINGDOM WITHOUT A KING
(DEMOCRATS UNMASKED)

©2012 Jose Jimenez

To my wife Marcia, children and grandchildren whose uncertain future inspired me.

A Short, Politically Incorrect Novel

THEY STOPPED J.MADISON, A.HAMILTON, J. ADAMS & B.FRANKLIN. BUT NOT A.LINCOLN!

Quick History Lesson:

13th Amendment: Abolished Slavery
100% Republican Support
23% Democrat Support

14th Amendment:
Gave Citizenship to Freed Slaves
94% Republican Support
0% Democrat Support

15th Amendment: Right to Vote for All
100% Republican Support
0% Democrat Support

OBAMACARE:
0% Republican Support
86% Democrat Support

WWW.UNCLESAMSONGUIDEDCHILDREN.COM

Once upon a time (not long ago) there was a Kingdom without a King, created by the people for the people. This Kingdom was the most admired and envied in the world. The citizens could fail or succeed on their own, enjoy freedom, liberty and certain rights detailed in a national document they called a CONSTITUTION. The

motto of the Kingdom was, “The land of the free and the home of the brave.”

These fortunate people prospered beyond imagination, almost achieving the perfect Republic. They were law abiding, generous, not afraid of each other and did not have castles, walls or gates for their homes. Their science and technology advanced by leaps and bounds, creating the greatest wealth per capita the world had ever known – they even explored the universe.

This kingdom without a king, with less than 5% of the planet's population, produced over 70% of its planet's wealth and over 90% of its innovations. People from all over the world risked their lives (and many lost it) trying to become part of this Kingdom without a King.

This Kingdom exported its freedom and liberty experience to other kingdoms (with Kings) at the expense of the life and blood of its sons and daughters without enslaving the defeated or taking spoils of war. Their sole purpose was to have the rest of the world enjoy freedom and liberty; opening new markets for their innovations and technology so others could, on their own, achieve freedom & equal opportunity for all. They created a NAVY to patrol the seas and got rid of criminals (pirates).

The Founders:

The founders of the Kingdom without a King set the infrastructure of the new Kingdom with a four page document of 4543 words designed to protect the people

from a tyrannical government. This Constitution was then crowned with amendments called the **Bill of Rights**, limiting the Kingdom from ever enslaving its rightful masters, the people.

The Representatives:

For almost 200 years since its foundation, the people's representatives (or servants) of the Kingdom without a King were common people working full time on their own endeavors, and part-time as servants to its people. Many of these Representatives had little formal education or training in the works of the Kingdom. Most had common denominators known as patriotism, common sense and unselfishness. For many years these Representatives drafted limited laws and regulations following the limited-government Constitution of the founders of the Kingdom without a king.

The Spoilers:

Unfortunately, founders of the Kingdom without a King had failed to recognize human weakness in future professional politicians and left loopholes in the Constitution that allowed certain elements of the new society to become **perpetual parasites**, by writing laws enslaving the taxpayers while exempting themselves from them. These parasites have now corrupted the concept of limited government, creating ever-growing rules, laws and regulations restricting the freedom

and liberties of the people. The new spoilers' only product is words and the interpretation of words (depending on what your meaning of the word "is" is). They hold a **monopoly** of the law, they write, interpret and execute their laws and redistribute wealth from the people to themselves, their cronies and supporters (welfare).

The Plantations:

The founders of a Kingdom without a King weren't perfect, they were humans. Due to economical necessities and lack of manpower (Indians would not embrace the new culture since they were nomads); they purchased other human beings from mostly Muslim enslavers (kingdoms with Kings) to labor in their plantations. This practice was wrong but accepted at the time. The early 1800 Industrial Revolution created two distinct classes in the new Kingdom without a King, plantations in the South with plenty of forced labor (slaves) and the Industrial Revolution in the north that needed that labor force. Plantation owners were founders and members of the Democratic Party (Jefferson). Industrialists of the north became the Republican Party (James Madison). Briefly put, Republican industrialists freed the slaves from forced labor and acquired badly needed labor for their industrial revolution. Since Republicans freed the slaves, many freed slaves became members of the Republican Party. Oddly enough, at the time, the Democratic Party was actually known as Conservative (they wanted to

conserve slavery) and the Republican Party was known as Progressive because they wanted progress. How things have changed, and yet remained essentially the same.

The New Plantation:

Old time Democrats were able to conserve their power over the freedmen by creating **new plantations**. This new enslavement was accomplished by “protecting” the new freemen with welfare legislation that made people dependent (pets?) on government for their survival (Aid to dependent children and cradle-to-grave welfare). For over 100 years, the so-called liberal Democratic Party gained voters by enslaving more dependents. Just like Old Democrat Southern plantations, modern escapees from the new plantation (black conservatives) are called “Uncle Toms” in the new class warfare between black conservatives (Cain, West, Rice, Thomas) and black liberals (Right, Obama, Jackson, Sharptongue, Farrakhan, Rangel, etc.).

Ironically, during the presidential election of 2008, over 95% blacks voted for a black candidate just because he’s **black**, but in reality any black candidate would have won as a payback for injustices committed by the Kingdom’s ancestors. But well-meaning voters that failed to see that the selected candidate was not a descendant of slaves, 100% America nor even qualified to be president. He was just half

Kenyan black, of questionable birthplace, Muslim raised and educated by his step-father.

IRONY: 9-11-2001: The Kingdom without a King was attacked by Muslims, 2009 governed by a Muslim?

The Future Plantation:

As more blacks have seen the light and emancipated themselves from the protective cage of welfare plantations and become successful, they have been discriminated against by their own black leaders. Black conservatives' worst enemies are blacks who profit from their brothers' perpetual misery, family disintegration, moral decay and the frustration of not being able to get out of the plantation (welfare).

Illegals to the rescue

In just a few decades, Democrats have realized that they can add ~ 26 million black voters to the over 10 million illegal immigrant voters plus the welfare dependent voters by the stroke of a Presidential pen (executive order). They are brilliant you must admit! Their utopian socialist agenda is almost complete. Imagine a socialist-communist state the likes of the bankrupt European Union. Within 50 years (instead of 100) that Nikita Khrushchev promised us with shoe in hand at the U.N. (if you are old enough you'll remember). Those new 10 million voters will guarantee the

crowning of a King for the Kingdom without a King, ending over 250 years of a kingless Kingdom. Then the burning of the books began, those useless antiquated documents (paraphrasing Barack Hussein Obama's statements) written by the founders of the Kingdom without a King (Declaration of Independence, United States Constitution, Bill of Rights) will finally be erased from our lives and we will finally enter the utopian era of living With Other Peoples' Money. So hurry and join the new Kingdom with a King (dictatorship)!

I accuse the Democratic Party of enslaving the same people they pretend to protect via dependency on the welfare system (**the new plantation**) for the dual purpose of controlling their progress and getting their votes. (Would you bite the hand that feeds you? Not until he runs out of OPM as the Soviets, N. Korea, Greece, Cuba, etc.

"The same cat with different fur," (La Misma gata, Solo Revolcada): **The Many Faces of the Democrats:** Founded by Jefferson (who later abandoned it), revived by President Jackson (largest slave owner, except for a black man slave owner and wholesalers of slaves). After the Civil War, slave owners went underground and became the Klu Klux Klan (all Confederate Democrats), who were led at one time by George Wallace, former Governor of Alabama. In early 1900 they became the **Communist Democratic Party** briefly, then during the F.D.R. (Roosevelt) years, after his famous New Deal, they became the **Socialist Democratic Party**, which

culminated with L.B.J. (Johnson) after his “**Perfect Society.**” When socialism was getting bad publicity (millions murdered all over the world), they changed their adjective to a “**Progressive** Democratic Party.” The result: over **300 years** of enslavement, not only of **Blacks**, but of any color so long as there were poor, hungry, ignorant, handicapped or utopian. All residents of “**The New Plantation.**”

Let’s Fast Forward:

Heroes to the Rescue!

As in all novels, at the darkest hour and when all hope is almost lost, heroes, or knights appear to save the princess from the tyrannical King. History repeats itself (ignore it and be condemned to repeat it). Just like in 1773, when patriots rebelled against the foreign king and symbolically dumped tea leafs in Boston Harbor, new heroes appeared out of nowhere. These, like the 1773 crowd, were ordinary moms and dads (pillars of the family, the village, town, city, state, nation and of the civilization) who finally **had enough** of the new experimental **kingdom with a king**, with fraudulent crony capitalism, perpetual congressman, fraudulent lobbyists, Rinos, inside traders and the Obamanation of Obama Health Care. The heroes came out of nowhere, without a specific leader, but united to regain the Kingdom without a King and united to depose (within the LAW) the self-appointed savior king and prince of “**Hope and Change**”.

Just like in 1773, the heroes became known as the Tea Party. Like then, there was no specific leader; they didn't need one. Since the first Tea Party rally, over 70% of the population joined or sympathized with the new movement. Opportunists flourished to take advantage of the greatest combined political movement of the Kingdom without a King, but soon were identified and thrown overboard. The new heroes had two powerful enemies to fight. Socio-communist Democrats and Republicans in Name Only (RINO). The Democrat incumbents were easy to unmask and defeat during the 2010 election and were replaced with new (but inexperienced) truly conservative candidates. Over 35% of liberal Democrats were replaced.

The Rinos were more of a challenge due to their lying and deceiving the voters of their true selfish goals. Still, the heroes were able to replace Rinos and fossils by almost 50%.

Historical note: read "to win an election" by Quintus Tullius Cicero written in 64 BC (yes >2000 years ago!). See, politicians haven't changed, they just recycle. Paraphrasing: "Masses have many heads but few brains, tell them what they want to hear and they'll vote for you" and he was elected!

Rumors about a secret Kingdom:

Rumors have persisted since the founding of the Kingdom without a King that the founders had formed a secret society

to direct the Kingdom (and the world) for the purpose of world domination. This secret society claimed to be the third hidden party that controls both parties (Democrats and Republican) through its secret branch, the Masons. The motto of the secret society is supposed to be, **“No matter who they vote for, they’ll always vote for us.”** This reminds us of the Mexican& Chicago version: **“It’s not who votes that counts, but who counts the votes that matters.”** Is freedom and liberty a utopian mirage?

Checks and Balances (The Four Powers of the Kingdom without a King):

For over 150 years the new Kingdom without a King had maintained a political system of checks and balances, with two distinct political and ideological parties restricting each other’s power through the three branches of government (legislative {Congress}, Judicial {Supreme Court} and Executive {President}). That is only three. Where is the 4th? Read the rumors.

The RINOs and voters’ apathy are to blame for our loss of checks and balances. I.E.: Dodd& Frank housing and stock market collapse when the democrats had 100% control of Congress (2006-2010).

The Third Enemy to Defeat?

How to defeat an enemy when you don't know who it is? Enemy soldiers wear a uniform; terrorist nations (Iran, North Korea, Cuba, Venezuela, Syria, etc.) are easy to find, but a secret organization within your population is another story!

Members of the secret third party could be your neighbor, teacher, father or even son (but never your **sister or mother**). How to unmask them and defeat them? And do you really want to fight them or make them your ally instead of your foe? "To defeat your enemy, get to know him" (Napoleon?).

Again, the rumors are that the secret party has its roots from the Egyptian and even Babylonian times (~3000 years ago) starting with the persecuted Jews. This sect evolved throughout the centuries to bring membership to other than Jews (infiltrating?) and became known as the Masons. The socio-political environment evolved as the Catholic Church gained dominance throughout the world thanks to the Spanish colonization of the Americas and other Catholic Kingdoms in the pacific region. The old guard of the semi-dormant order of the Masons saw their influence being crushed by the enemy (Catholic Church) via its newly formed semi-secret society the "Knights of Columbus." As early as the 1700s a new society was founded by two powerful groups: a) the dissidents of the church and b) the existing

royalty. The dissidents had the brains and the royalty had the money to finance it. Thanks to the world's first Kingdom without a King, royalties around the world began to collapse (France, Germany, Russia, etc.) forcing the royalty to go underground, but not before ransacking their countries coffers. The brains of this allegiance were not anti-religion; actually they were fanatic religious men (never women). Some rumors claimed that they were sorcerers and practitioners of black cult (Satan's disciples) and that they believed that they were selected (by their God) to be the rulers of the world (**one world order?**).

How Smart Are The Enlightened?

If the founders of this great kingdom without a king were so intelligent, learned and visionary to write the Declaration of Independence, the Republic's Constitution and then the Bill of Rights, how could they even believe in an entity so contrary to their Christian beliefs? Did Plato's "The Republic" (Kallipolis) influence them? Did they become narcissistic to the point that they felt superior to the rest of humanity? Did they suffer from the "Immortality Syndrome" or they themselves fall prey to the human vanity that all we do is predestined by God (any God) and they are the **illuminated?**

Regardless of the beginnings, the founders had to ensure continuity for generations to come. Soon they discovered

that two factions of their closed group (founders) had emerged, the Democrats (Jefferson's group) and the Republicans (James Madison's group). The Democrats leaned towards the rule by the will of the masses. In example, if 51% of your neighborhood votes that you should be hanged. Should you be hanged? The Republicans on the other hand insisted in Plato's "Rule of Law". This is closer to the original Greco-Roman system over 3000 years old that gave birth to the Magna Carta (the foundation of our Bill of Rights). By example, the written law says that you should not smoke, you don't agree? Then **change the law**. Envisioning the eventual confrontation of these two ideologies (civil war?) they (the founders) embraced the creation of the third secret party whose founding members were only the **illuminated**. How to perdure the third party beyond their natural life? And most important, maintain its secrecy? Their direct descendants were one source; the complicity of the two new political parties (to share power) was another and then what? Obviously the new breed of intellectuals, being indoctrinated by the academia at the Ivy League universities, became an endless supply of leaders for centuries to come. How to insure loyalty and secrecy by the new young idealistic and inexperienced disciples of the illuminated? Simple; use the same methods as the Masons (their branch). 1) You must believe and fear God more than death. 2) You must prove loyalty to us by committing a major crime kept secret only by your mentors. 3) You must

not swear alliance to any Nation or government other than to us. 4) You must defend the sect even at the expense of your own life or family and if so ordered kill dissenting members (Kennedy?) or for minor offenses, impeach them (Nixon but not Clinton?). The bottom line is that every member of the secret **illuminated** society must have a mortal secret (only known to the directors) to hide (just in case he tries to escape the sect and if he does, there are many willing members to execute him). Note: The Soviets practices this: If you escape or commit suicide, we'll kill all your family (mostly German scientists). **And they DID!**

Wow! Those four rules are extremely powerful so that no common man can adhere and obey to them. But again, leaders to be are no commoners. It requires individuals with these qualifications: 1) Hunger for power beyond imagination. 2) Disregard for human life (wars, targeted assassinations, etc). 3) Alliance to a super God (represented by the illuminated B. O. D.). 4) Willingness to sacrifice your family and Country, if so required, for the benefit of the **illuminated ones**. Wow (again)! Do you know anyone that meets these four requirements? I don't.

REALLY SMART?

Let's assume (give me the benefit of the doubt) that all of the above as I have exposed is true (after all this is just a **novel**, not bases in historical or real facts, ok?). Let's also

assume that they (the illuminated) are the smartest beings on earth and they know what's best for us (not only the U.S. but the whole human race) and let's also assume that (as they believe) there is a super God superior than our everyday God (regardless of your religion or your God's name) and if their ultimate goal is to follow, obey and satisfy their super God, would this qualify them as **religious fanatics** no different than the **Christians of the middle ages** and the **Muslims of today**? Wouldn't the present wars directed by their chosen kings (presidents) be considered terrorist wars? **Think about it!**

Now let's assume that the previous paragraph is wrong, that they want the best for humanity and they select the temporary King (without a throne) and to keep people happy they switch from Republicans and Democrats on a very equitable basis (now it's your turn, then it's mine, etc). How do they select the winner to be candidate and ensure that he will follow their command? That he won't rebel against their wishes and long term plans of world control? What if that person was to blow the whistle and unmask the **illuminated**? How would they stop him from talking? Then let us consider this scenario:

The king to be must meet these requirements: 1) have heavy baggage in his past (criminal secret?) B) Proven loyalty to the illuminated (committed a secret crime under their orders?), C) be an unscrupulous power hungry man (the end

justifies the means?), D) Be a good talker (liar) to incite the masses (any lawyer would qualify), E) be more fearful of the **illuminated** and their super God (Satan?) than anything else (including the death of his family?). What would happen if he was to rebel against their command? Discredit him or impeach him (Nixon?). How would you stop him from blowing the whistle (Talking)? Plug the ears of the listeners (**control the news media**). If all else fails, **execute** him (Kennedy?).

Why They Want Communism:

Liberal Kings who call themselves progressive are actually regressive (enslavers of the masses) via dependency (welfare, also known as socialism/communism). Is it because communism is the **supracapitalism** of the state and if they (the illuminated) control the state they **control the world** (one world order)? If the sharing of power theory is correct and if the illuminated theory is correct, then let's analyze the highlights of their latest pick of **Kings** without throne and their legacy:

- 1) Roosevelt (D): 1933-1945 (12) Architect of the new plantation (**welfare**), expansion of socialism and soaring taxes, the NEW DEAL, exploding bureaucracy (double in 10 years). Lend **>\$11 BILLION (in gold) to the Soviets that never paid back. Today's value: ~ \$35 TRILLION!** FYI: Hussein Obama's National debt is only \$19 trillion!
- 2) Truman (D): 1945-1953 (8) Finished the Japanese Empire but gave the prize jewel (Europe) to the Soviets (by your orders?) causing **millions** of deaths and 50 years of COLD WAR.
- 3) Eisenhower (R): 1953-1961 (8) The interstate highway system, stopped communism from spreading, rebuilt Europe, stopped Chinese in Korea (but didn't finish them)
- 4) Kennedy (D): 1961-1963 (3) stopped the Soviets, created NASA (America's greatest innovation), wealth producer and technical leadership never since matched.
- 5) Johnson: (D) 1963-1969 (7) expanded socialism-welfare (plantation) expanded Vietnam war, architect of the "great society" (more welfare-plantation expansion).

- 6) Nixon (R): 1969-1974 (6) liberated China from Soviet control, opened new markets and destroyed the gold standard creating worldwide-unlimited inflation.
- 7) Ford (R): 1974-1977 (4) inherited Nixon's term but left no legacy.
- 8) Carter (D): 1977-1981 (4) 25% interest rates and super inflation, Iran fiasco, gas rationing, created DOE (Dept. of Energy for energy independence from US), the stupidest president of all.
- 9) Reagan (R): 1981-1989 (8) destroyed the Soviet Union and Berlin Wall, low unemployment & taxes, **high patriotism**, booming economy, technology and respect (not fear) of U.S.A. abroad.
- 10) H. Bush: (R) 1989-1993 (4) after Reagan's legacy had a hard time improving on it (read my lips).
- 11) Clinton: (D) 1993-2001 (8) The most **immoral** (on record) of all, good talker (lawyer) could have prevented 9-11. Created the Balkan's war to aid/protect our arch-enemy (the Muslims).
- 12) W. Bush: (R) 2001-2009 (8) one track mind (protect America) ignored the rest. Allowed liberals to expand trillion deficits, created the Rino philosophy. The most liberal conservative (RINO).

13) Obama: (D) 2009-2012 (4?) the most ignorant (on record), anti-American, pro-Communism, unfit and unqualified of all. Good reader of other people's writing (**teleprompter**). As much as he is a divider of the masses, by accident, he proved the first law of physics (for every action, there is a reaction of equal and opposite force). **The Tea Party! Thank you Mr. President!**

Question to the Illuminati: If you're the smartest of us all, the ones who know what's best for this great Country (and the world), the chosen ones by your **super God**, how do you explain the above? Isn't it clear to you that democratic Kings (without a throne) who follow Keynesian doctrines (Socio-Communism) bring the country (and the world) down and Republicans (not Rinos) who follow Friedman's economic freedom raise the country (just to be brought down by the next liberal King without a Kingdom?) Are you, by giving us your latest pick (no previous history, questionable parental and birthplace records and most important the least qualified of all your previous selections) testing the American voters **intelligence**, patience and resilience? (In other words, how far you can push us and dominate us?) Well, if that is the case, like Admiral Yamamoto said "**We have awoken a sleeping giant.**"

Let's fast forward:

The Knights to the Rescue:

Just like in the middle ages, the knights around the Western world rose to the rescue of their (and our) civilization and stopped the Muslims bloody aggression and dominance of ½ the known world, defeating them and relegating them to a dormant state for over 7 centuries. The new knights of the 21st century have risen (thanks to your latest pick of the King without a Kingdom) not with horses but with patriotism, hungry not for food but for freedom, liberty and self-governing as protected by our great Constitution and its Bill of Rights. This great populous movement started not by politicians, generals, think tanks or academia, but by common housewives. It resonated around the world and thanks to the internet (another American **invention**) helped to create the “Arab Spring” revolts spreading to China, Russia and many other counties, to rid themselves of their own perpetual kings disguised as dictators.

The Tea Party:

Enough is enough! They screamed in their neighborhood, to their friends, family, et al! The **illuminated** controlled news media ignored them, hoping that it would die of natural causes without their coverage, but they forgot three critical factors:

- 1) The will of the people,
- 2) The power of the internet and
- 3) Hatred for big government, runaway spending, complicity of the Rinos with the King without a Kingdom.

Who belongs to the tea party? Look in the mirror! Just plain people like you and I, who never got deeply involved in politics, hardworking, rich, poor and in between; old, young and in between; white, black and Mestizos; Democrats, Republicans and Independents; working, retired and unemployed; just plain **Americans!** You went to town hall meetings by the hundreds, to rallies by the thousands and to the Kingdom's doorstep by the millions. You use your own time and money to get there, no one offered you a free ride (nor would you have accepted it). You slept in your car, or at the airport and bus station; you respected the law and cleaned up after yourself, you dressed up with the star spangled banner and had non-offensive signs. All you wanted was to be heard, counted and to take your country (and government) back! **Your voice was heard loud and clear!**

The progressives (actually regressive) were amazed and confused and immediately reacted the only way they know how: to discredit, attack and lie (read Karl Marx MANIFESTO). You were accused of being racist terrorists (H. Reid. and N. Pelosi), of being anti-American, discriminating

and LAZY (B. Hussein O.), A Nation of COWARDS (E. Holder). When they realized you were serious and determined to take your country back, they infiltrated your ranks to destroy your movement from within. When they realized it wasn't working, they invented their own counter movement financed by the unions and George Soros. The **Occupy** movement is not worth describing here, except to say: Is this the best the liberals and **illuminated** can do? Is this the future they have in mind for the Kingdom with a King? Is this what they want our children to inherit? Well, maybe they do! They want to create an easily controlled mass of dependent (drugs, alcohol, welfare, immoral hippies) bodies of consumers (not producers)?

Are the **ILLUMINATI** really smart? Haven't they learned from the Soviets, Cuba, North Korea, old China, and to a lesser extend from the socialist European Union? Welfare-socialism lasts only as long as the producers are willing to produce (in other words they will run out of our wealth sooner than later).

Irony note: wasn't the European Union what Hitler's dream was all about? **Think about it.**

Hello there somebody: We're not cattle, we're human beings with souls, brains, reasoning, dreams, frustrations and aspirations and willing to fail if that's what it takes to succeed and leave a legacy for generations to come! Did you

listen? Do you understand what we are telling you? **Get off our back!**

The Rinos (also known as The Fifth Column): There is nothing worse than deception, whether it's from your spouse, family, friend, neighbor, soldier or politician. Why? Because you trusted them and they stabbed you in the back! That's why spies were **shot on sight!** Not anymore, now they are **RINOS**.

Thanks to very hard work of the grass-root movement (also known as the Tea Party), lots of Rinos and liberal Democrats were replaced with new blood (albeit their inexperience in the Kingdom works {Chicaneries}) of proven conservative servants of the people (not the Kingdom) in the 2010 elections. (Wow! Did the **illuminati** allowed the will of the people to perdure? Or, did they just want to see how far we can go and how much they can control us? Or the **ILLUMINATI** don't exist?).

What's Next?

Will the Tea Party become the 4th party? Not in 2012, maybe in 2016. First, it has to solidify (with the **illuminati's** permission?) its influence in the legislative, executive and judicial branches of the government.

The present **corruption** has become unsustainable even for the wealthiest Kingdom without a King. This short novella

can't cover every one of them that has been caught (~1% of the total traitors?). The road ahead for the **TEA PARTY** is long and never ending, but we have to start sooner than later. The 2010 election was a good start, but we need to maintain this momentum going and keep the grass-roots movement alive and motivated. There are plenty of leaders to pick from to lead the **patriotic** populace (regardless of party affiliation). The 2012 election will be **crucial** for this Great Nation & the Tea Party (live or die). If it can clean both houses and obtain conservative majority, it has only 2 years to solidify its position as a potential leading party for 2016.

QUIZ: Which State has 60% of its governors in jail? 53% of its Aldermen indicted?, is the birthplace of the mafia? And in which reside all of Obama's mentors?

Priorities (TEAPARTY wish list):

Legislative: 1) Term Limits; Congress: 6; Senate: 2; 2) Prohibit retired lawmakers from becoming lobbyists for the same number of years as they served. 3) Replace 16th amendment (income tax) with a flat sales tax (also known as **Fair Tax**). 4) Enforce balanced budgets (no federal deficits). 5) Enforce immigration laws. 6) Amend the 14th amendment (right of citizenship by birth in the U.S.A. 7) Same laws, responsibilities and benefits for ALL citizens (bureaucrats or producers) i.e. Obamacare for all or none. 8) Legalize all drugs and dispense them at cost to druggies via state

controlled charity stores (Wow! Imagine this? Remember prohibition?) Either we legalize them and let it die of natural causes over time (like alcohol) or wait for a Mao Tse Tung equivalent to kill on sight anyone in possession of drugs (~ 40 million Chinese executed). The illicit drugs market is about **1 trillion dollars per year!** WE spend over **15% of our GDP** in SECURITY related expenses! (Add it to B.H. O. deficit), but the financial drain and damage is nothing compared to the human loss and the destruction of our most valuable asset as a kingdom: our future (**the youth**). Mexico would be happy to stop the drug traffic and killings. 9) If the founders of this great nation were able to write the U.S. Constitution in 4 sheets and the Bill of Rights in 1 page, Congress is to translate every federal law into plain English (**no "is" is**) and print each law in one(1) 8 ½ x 11" page. Hint: No lawyers allowed (James Madison was right). 10) Congress to void and archive any and all non-current laws. 11) Deport George Soros to U.K. (indicted for crimes). 12) Enforce the 10th Amendment (states' right to self-govern), no more "core" indoctrination of blacks!

Some of the above will require constitutional conventions (2/3 of the states must agree to the convention) and to enact within 2 years would be very difficult for any Kingdom (except the Kingdom without a King!)

Executive: 1) Null and VOID all his executive orders. 2) By "Executive Order" (just like his predecessor): a) fire every

czar and their aides or anyone associated with Hussein Barack Obama (they would become spies); b) Fire 10% of federal bureaucrats, preferably all those hired during Obama's term; c) do a thorough audit of the Obama administration's spending (remember MF Global, \$1.2 Billion "I don't know where they are?") and white house historical assets (remember the Clintons?); d) Freeze all unauthorized and non-budgeted federal government spending; e) Kill the crown of Obama, Obamacare and at the same time, free the health insurance companies to compete across state lines (~20% savings to consumers) and institute tort reform (~20% savings to consumers), then fire another 10% of the bureaucrats. The above is drastic medicine for a drastic illness, but let's face it; the Kingdom without a King is **in life support** now! 3) Enforce our Constitution (Article II) that limits the power of the President and amend the Constitution to plug any holes our naïve founders (they were patriots) didn't think of humans (**illuminated?**) becoming dictator/presidents.

Judicial: This is the root of most of our problems in this great Kingdom without a King, and the most complex and difficult to correct. Why? Because "It all depends what your **meaning** of the word "IS" is (in other words, the interpretation of the Constitution and the law as written).

A) Supreme Court: 1) Minimum age: 60 (little sexual and fortune making interest). 2) Maximum term 12 years (not for

life). 3) As in Plato's Republic (Kallipolis), must be of unquestionable character (for 60+ years) lawyers need not apply; must have proven record of having been a fair leader (made of gold) and recommended by his community (during regular elections) to be part of a pool where the president can select and the majority of Congress to approve (no political favors). 4) Impeachable by majority of both houses only (not the President).

QUIZ: what USSC ruling legalized the killing of millions of unborn citizens?

B) District Courts: 1) Same rules as for the Supreme Court. 2) Recommended by the district residents of the district they will serve the people and Constitution.

QUIZ: which district court turned off the water to farmers in California to save a ½" fish?

C) Federal Judges (this is where most of our problems originate, they all think and act as if they are the **Kings** and can legislate (control) the entire nation with their own interpretation of the law and Constitution!) 1) Minimum age: 60; 2) Maximum Term: 6 years with reappointment of 1 more term of 6 years; 3) No law degree required; 4) Recommended by his state voters for a pool where the Governor can recommend to the Congress for appointment. 5) Impeachable by majority of both state houses. The above might appear to be utopian wishes by a non-lawyer

commoner, but that's what the founders of the Kingdom without a King were! They were non-lawyer patriots with lots of common sense.

QUIZ: who can overrule the majority of voters' will (hint: marriage definition)

Tea Party vs. Illuminati (The Showdown):

We know the Tea Party exists and it's alive and has become a political grass-roots movement even more powerful than its predecessor. All it needs is cohesion and defined leadership (it is almost like a giant Medusa). It has the power of millions (~60 million unofficial members/contributors/activists) of patriotic individuals without specific political ambitions other than cleaning up the **corruption**, fiscal responsibility and elimination of the Obamination (**Obamacare**). We must give credit to those that deserve it and as ironic as it is, credit is hereby given to the straw that broke the camel's back. Thank **you Barack Hussein Obama (or Barry Sorento, or whatever your name is)**. The Tea Party is only 4 years old, but its origins go back as far as the American **Illuminati** (the original Illuminati was founded in the 17th century by a German Jesuit that rebelled against the Roman Catholic Church for the purpose of protecting the royalty and intellectuals against the church's Diesmos and Premicias (taxation) laws. You see, nothing has changed! For millennia the human's worse enemy has been

(and will be) the humans themselves (read Plato's **The Republic**). "Power corrupts and absolute power corrupts absolutely." The only thing we can do is follow the **U.S. Constitution** and its doctrine: Limit the federal government's power (small government) and enforce the **checks and balances** (no Rinos) instituted by the founders of the kingdom without a king!

A Call To Arms:

Because the Tea Party is real tri-dimensional human beings made of brains, flesh, bones and blood and the **Illuminati** is imaginative (?), we cannot talk to them, argue, negotiate, hit them or kill them. We have to develop a new strategy of war and peace. They can hear us, but we cannot hear them; they can see us, but we cannot see them; they know who we are, but we don't know who they are; they have all the weapons on their disposal (news media, government, I.R.S., laws, etc), we have only the power of persuasion and ultimately, **rebellion.**

Assumptions: Most of what's known about the **Illuminati** (See Wikipedia) is hear-say cited before in this novel and the general assumption is that their one and only objective is **Absolute Power** (worldwide Kingdom) and that they will use whatever means to achieve that (**the end justifies the means**) including socialism (Bureaucratic control of the wealth), Communism (supra-capitalism of the state, the

state controls everything, including your life, and death, wealth, children, products you make, et. al.) Examples would be the Soviet Union, China, North Korea, Cuba, etc. (Iran is a theocracy, worst yet).

Anyway, because this is just a **novel**, where the impossible is possible, let's talk to the imaginary **Illuminati** in a one-way conversation.

Dear **Illuminati**: **1)** We the people have had a taste of freedom, liberty, and self-reliance, the right to seek our own happiness, the right to fail or succeed on our own and determine our own destiny for over 200 years! **2)** We the people cherish and will defend to our death the **U.S. Constitution**, the **Bill of rights**, the set of fair laws as written, the right to dissent and take arms against any **foreign or domestic** enemy. **3)** We the people want a truce with you. Not because we fear you or cannot defeat you, but because we know that there are many common goals and interest between us such as progress, fairness, respect for the rights of others, wealth creation, aid to poorer nations (we the people are and have been the world's most generous society), defend against tyranny (we the people have freed over 50% of the world's population since our birth as a Nation). **4)** We the people admit that we have made many errors in the last hundred years, some of which are: a) a blind trust of elected officials; b) apathy towards elections; c) reliance on welfare (plantations); d) cheating ourselves

and our compatriots through the government's contracts, intentional loop holes, et.al.; e) We have let our representatives tax us to and beyond death; f) we ignored when our elected officials make new laws for us and **not** for them, cheat on us through numerous scams (pork barrels, insider trading, lavish expenditures, pay-to-play, etc.); g) those of us that are bureaucrats (federal and state) are leeches with only 2 goals in mind: 1) Protect our job, pension and retirement and 2) make the life of the taxpayers miserable (author: one bureaucrat told me" we envy you because you can prosper in private industry and we, we're stuck!").

You, the **Illuminati**, are powerful, control the press, control the richest men in the world (through concessions and tax loopholes), control the markets (oil, food, housing, education {brainwashing}, major industries {G.M., Chrysler, defense contractors}, control the unions (American's #2 enemy), control the law (ACLU, judges and courts), control the drugs (America's #1 enemy) control everything else not listed here except—our hunger for freedom, liberty, religion (I.E. Obama versus Catholic Church), drive, ambition and self-reliance/determination.

A deal (For you):

A. 1) **We the people**, will let you keep on praying to your super God. 2) **We the people**, will let you play your games of cops and robbers (alternate presidents between liberals and conservatives). 3) **We the people** will let you keep the corrupt/bankrupt news media. 4) **We the people** will not interfere in your world dominance/control outside of the United States of America (it's up to them to fight you).

B. For us the people of this great **KINGDOM WITHOUT A KING**: We hereby reclaim control of our own destiny with a (small) government by the people and for the people. That's all!

The Final Test:

If you heard and understood us, you'll stay out of our way in this coming 2012 election (don't shove Obama down our throats again). Don't count our votes (and fix the results), don't send your I.R. S., Black Panthers, SDS, ACLU, ACORN, ACP, to cheat and confront us at voting places (blood will be on your hands) with your community organizers. All we want is to take what's rightfully ours, **our kingdom back, without a king!**

Deadline: The “D” date: November 6th, 2012,

Respectfully,

We the people of the United States of America!

Tea Party To Do List:

1. Be ready for violence at our rallies and voting polls. (They are having “dry runs” in FL, Ca, and NY) + OCCUPY ACORN is alive and well, just went underground!
2. Have patriots oversee and document any illegal activities by the opposition and file a complaint at the polls with the authorities immediately.
3. Do not confront them, but defend and protect our **Country and Constitution**.
4. **You**, the people, are our last line of defense!

A brief biography of the author of A Kingdom without a King:

1. Born on a farm in Mexico in 1937 (start of WWII).1 of 8 homeschooled children, help in farm sun up to sun down, shoes were for Sunday school only.
2. Graduate from teachers and engineers colleges (arrested and jailed for being politically incorrect).
3. Immigrated (refugee) to this great country in 1961 (no hablo ingles), escaped the Soviet Embassy

4. Worked 2-3 jobs/day while attending school.
5. From 1967 to 1972, I contributed to the Apollo space program, obtained several patents and started my company (so I could be the president too!).
6. Member emeritus of the infamous 5% club (that pays 70% of all taxes). Do you want to join us? Not easy, but **rewarding!** (I'm not the exception but the product of freedom & CAPITALISM!)
7. Never, ever cheated, robbed or killed anyone to make my fortune, but guilty of workaholicism.
8. Love this country and will fight for it with or without my pen.

To be continued after **November 6th, 2012.**

Manifesto to the young (and not so)

Mr. President: I'm afraid

Who creates jobs?

Tiger parents vs. D. O. E.

The D. O. E. has FAILED

Government CAN'T Legislate MORALS

Who creates jobs?

A Letter to my Children (unknown author, edited by J.J.)

Manifesto To The Young
(And Not So) ©2012

Dedicated to my children, grandchildren and the future of
this GREAT COUNTRY (its youth)

4-21-12

Why this **MANIFESTO**?

Because at my humble & glorious 75 years of age and for the 2nd time in my life I'M AFRAID!

I'm afraid of the future of this great REPUBLIC and my descendants. I came to realize that the younger generations are ignoring HISTORY and will be DAMNED to repeat it! That's why I wrote this in sections and included it here:

Recommended age reading:

<20: Skip this (you know it all) My experience: I was young once

<30: **Capitalism** (have you try HARD?) My experience: 1961 came empty handed, now part of "1%'club"

<40: **Communism** (you're too young to know about). My experience: German father & relatives under Soviets

<50: **Socialism** (you don't know it) My experience: Born in Mexico, lost farm to "redistribution of wealth"

ALL: Muslimism (scary) My experience:"911," loss of freedom, airport searches, >15%GDP waste in security.

Academia: "Dreams from my Father" (useless to talk sense to you) my experience: was a brainwashed teacher

Communism is great! Why? Think of this: You are born and live in a society where the population is so homogeneous (no individuality), no middle class(only poor and the politburo), no industry to produce or consumers to consume, no laws to obey or break, no rights to protect or infringe, no ambitions to fulfill or failures to suffer. Communism is needed in this type of society because all the responsibility lies on the politburo. All you have to do is obey and do as you are told for the rest of your life. You won't even have to worry about food, shelter, health, funeral or your children! The state takes care of everything!

The pharos were the first to practice and enforce Communism over 5000 years ago, then the Greeks experimented prior to Homer (~3000 years ago) and then the kingdoms did it to a lesser degree. In Plato's Republic (Kallipolis, the ideal city-state) women and children were to be common property to all men, and children were to be bred & become specific tradesman, defenders or rulers (Muslim religion?). Wow! Have your read "A brave new world?" Today, Cuba, North Korea, Iran & others are tyrannies with communist names. Several Muslim Sikhs practice a variation of it. After the Mexican revolution of 1910-1927, the Bolsheviks gave up on implementing it. Why? Mexicans were too selfish (Trotsky). The Soviets gave up after 73 years (1917-1989) and over 60 million lives sacrificed in the name of the Proletariat (workers union) and switched to their version of capitalism. China (1945-1996) was smarter, they switch to state capitalism (state control of economy and production) after only about 40 years and >40 million murdered and ~ 100 million starved to death during

Mao' industrial revolution. In short, ~30 years they are the world's 2nd largest economy and the richest (cash in hand) thanks to >100 million slaves (~\$3/day income).

How do I know so much? My wife is Chinese, my uncle Ronnie was a rocket scientist enslaved by soviets, uncle Paul was Panzer commander while uncle Hans was anti-Hitler and his son Joachim was a well-known writer.

What Communism Really Is: Supra Capitalism of the state.

In other words, the state owns everything! Even you!
Private property is illegal!

Marx and Engels: If they were alive today, they would renounce their manifesto and embrace U.S. style capitalism. Why do I say this? Read their manifesto (between the lines) and understand the meaning of mass industrialization and Proletariat domination of it (unions: AMU, UAW, AFL-CIO, SFWU, steel workers unions, etc.). Their manifesto was written (1848) at the dawn of the industrial revolution when most new industries were financed by the only people that had money (feudal royalty millionaires), have you ever gotten a job from a poor person? The owners had no prior experience other than enslaving their subjects (industrial plantations). You work at a mine, shop at its store, went to its doctor and were buried at its cemetery. So, don't get me wrong! When written (1848) Communism, just like unions, was needed! Not anymore! They are Mafia controlled where the inept hide in the masses

Why the Soviet Version of Communism Failed?

Individuals, unlike cows, will produce the most and the best if they see a reward at the end of the tunnel; otherwise, they'll just survive. The Soviet's production never sufficed the population's needs (rationing and price control [food stamps?]). Their industrial output (cars, trains, airplanes, bicycles, etc.) was of such low quality they couldn't give it away, instead they forced their satellites (enslaved counties) to buy them at their price (Obama's electric cars?). Yes, they were the first in space (Sputnik), but only spoke German. And by the way, if you were a valuable proletariat (scientist) and refused to work, you would be sent to Siberia (concentration camps). If you escaped or committed suicide (you are the property of the state) your whole family would be killed! How I know? My uncle Ronnie was a rocket scientist!

Not all was that bad, you had the right to believe in anything so long as you never talked about it even to your kids. Don't believe it? Ask any refugee or read the 1950's newspapers.

One positive aspect of Communism: No lawyers are required since there are no laws to interpret, defend or cheat on, just like in the Kallipolis of Plato or Shakespeare's plays. And just like in Communist China (before it became Socialist), you were shot on sight if you were caught with drugs. Remember: you are the state's property! The supreme law of the land is the Politburo (our Illuminati?! "Communism is Great" if you, (as my wife was) are part of the ruling class). Interesting NOTE: If you are member of the POLITBURO, you get to be buried in a State plot otherwise, you get to GO home (in a jar with other's

ashes).How do I know? My in-laws were buried! Oh! And the ONE child limit applies only to the PROLETARIAT! I have plenty of nephews).

If after reading the above, you still want communism, we have some free one way tickets to N. Korea, Cuba, Iran and other selected destinations. Write to me.

Socialism: What is it? Definitions vary with opinions. Mine is that it is equivalent to a flu, and Communism is like pneumonia. Some systems migrate from flu to pneumonia (Cuba) and a few from pneumonia to flu (China). Some define it as “social justice” (Engels), others as “redistribution of wealth” (Obama). What is justice? Socrates (~ 400 B.C.) defined justice as “the advantage of the powerful.” Read Plato’s Republic) i.e. bureaucrats, judges, lawyers, super rich, elite, illuminati, etc. (I like this definition). Modern socialism is control of the wealth (produced by a diminishing percentage of the population) to be distributed to an increasing majority of the population, administered by the state and, in the process, the state keeps a commission (for operation, administration, bail outs, pet projects, pork barrel and paybacks). The money left (?) is used for welfare, mostly to the poor (food stamps, Obamacare, housing, Medicare, TV, cell phones, internet access, pensions to powerful unions, etc.). I equate welfare to a modern plantation. Why? It enslaves the poor & ignorant because they become depend on the hand that feeds them. **The pay back: election time.**

Socialism is great! Why? Just like Communism (without the rampage crimes of it), the state controls the economy and by doing so, forces the ever smaller productive sector to produce specific products (favoritism) with subsidies, bailouts and Presidential decrees (i.e. programs promoting electric cars, bio-fuels, solar-wind energy, etc) while discouraging (or forcing) others to abandon or slow down; or through regulation, high taxes or price controls, to make their products unprofitable (i.e. oil exploration, pipelines, nuclear power, coal production, etc.) with the final result being two-fold: 1) Middle class pays more for everything (since 2008, gasoline has doubled in prices, electricity is up ~20%, food is up ~15%, etc.), thus reducing its buying power and lowering its numbers, while increasing the poor class mass. 2) The unions' ever increasing power over the industry and government (Marx and Engels would be proud of themselves) creates dependency, waste, inefficiency, favoritism and prostitution(of mind and body) This becomes unsustainable for any system, causing tremendous deficits and forcing companies (i.e. GM, Chrysler, the airline industry, the mining industry, etc.), cities (i.e. Detroit, Dearborn, Harrisburg, etc.), states (i.e. California, Wisconsin, Ohio, Indiana, etc.) and even countries (~1/3 of the European Union, U.S.A.{yes our U.S.A.}), to fall into bankruptcy or loan defaults, creating more unemployment, loss of investors savings, homes and even personal bankruptcies (a vicious cycle) and increasing the *Plantation population. But, nothing is forever! Sooner or later, the producers will produce less and less just to survive (like under Communism), the tax revenue decreases, and the elite will print more fake currency and---voila! The system implodes!

China to the rescue! Thanks to the enslaving ~900 million peasants/workers (~\$3/day) and the undervalue of their Yuan (~ 40% low), you can buy at ~20% discount most of what you need to survive at Wal-Mart, dollar stores. How do I know? I have parts made in China!

Offer: If you are anxious to live in a Socialist country, and can't wait for the U.S.A. to become one, free one-way tickets are available (contact me).

Capitalism (U.S.A. Style): No one wrote an instructional book on how Capitalism should work. It just evolved, grew and grew and grew! It grew thanks to that old, useless and antiquated document (non-verbatim definition by Barack Hussein Obama) known as the U.S. Constitution (and the Bill of Rights and 10 Amendments). Under its protections, in a short time (< 100 years) the U.S.A. became the world's economic superstar, and in another 100 years, with only ~5% of the world's population, produced over 70% of its wealth, 90% of its technology (patents), and the highest standard of living than the rest of the world combined , with approximately 60% of its population considered middle class, 20% poor, 10% rich and 10% super rich, while the 1st world(?) countries had ~5% ultra-rich,15% rich 20% middle class and ~60% poor and the 3rd world countries(dictatorships/sheiks/communism)~3% ultra-rich(politburo/kings/dictators),5% middle(mostly military/bureaucrats) and>90% POOR . Capitalism has created more billionaires & millionaires, most of them new and self-made (Gates, Jobs, Ford, Soros [yes,

Soros], capitalism doesn't discriminate, even criminals can become rich], etc.) than the world combined, but it lost ~20% of them since 2008 (Obama?)

Its mighty and powerful consumerism and productivity was exported to the rest of the world to open new markets and find new sources of materials and labor, creating a one world market and increasing the standard of living of many impoverished nations. The good, bad and ugly is unavoidable and injustices (what's justice?) were and are committed always in complicity with local governments (corruption). Contrary to the well-established and accepted practice for millions of years that the "spoils of war go to the victors", never (to my knowledge) did the U.S.A. enslave and ransack the defeated nations (well, except Mexico that lost >50% of its territory in 1848). On the contrary, it rebuilt the defeated nations (watch the movie "A Mouse That Roared"). Germany, France (yes, France), Italy and Japan. North Korea and Vietnam wished they had signed the truce. This served two purposes: 1) It stopped Communism through Democracy and 2) opened new markets for consumers, their innovations, products and tourist!

What gave the USA this advantage over the rest of the world? After its Independence and protected by its CONSTITUTION, it created its MIGHTY US NAVY to protect its interest (and the rest of the world's) eradicating high seas piracy!

The U.S.A. is the most generous country in the world. In times of calamities and world hunger, we'll help even our

enemies! That's why they call us stupid. They don't hate us, contrary to Obama's opinion. They envy us (love and envy: the two most powerful human emotions, but envy begets hate).

Hmmmm, let's see what this Kingdom Without A King (USA) has done in just the last 75 years (correct me if I'm wrong!):

1. Stopped world domination by Nazi Germany, Fascist Italy, Imperialistic (and very cruel) Japan and their satellites (1940-1945).
2. Went to the moon and back (1961-1972) (and I'm proud I was part of it!).
3. Developed/invented 95% of all technological advances that we enjoy today.
4. Quadrupled its food production enough to feed $\frac{1}{2}$ the world's populations.
5. Almost doubled human life expectancy (sorry about it, S.S.A.).
6. Ended the Cold War (1945-1989/Berlin Wall) and defeated the Soviet Union stopping its enslaving of >20 enslaved nations.
7. Exported freedom and democracy to the four corners of the world (some counties didn't want it).
8. Free the world with the invention (U.S. Army) and propagation of the internet (sorry Al Gore!).
9. Developed and explored the deep sea and shale oil deposits.
10. Developed and commercialized satellite communications so > 1.3 billion (1/6 of the world) people could watch Super Bowl XLVI! Should I continue or have you had enough?

My offer again: If you want to trade places with any foreigner, I have a waiting list.

Oh! You want to stay and reap the fruits of your ancestors? Then fight for it! Get up early, find a job, be honest and proud of yourself and turn in your resignation at the

Plantation! Aim to become part of the 1%. I did it! Not easy but very REWARDING!

Fanatism-Muslism-Feudalism: I admit I'm ignorant about your culture and with all due respect: WAKE UP! You have been dormant for >700 years. If it wasn't for your depleting natural resources and the U.S. foreign aid and technology, you would have long perished of starvation and internal wars! That I know you have no infrastructure, industry, technology or ambition and can't even compete with Asian Nations, hungry for progress, freedom and wealth!

Believe in your God, but for Pete's sake, eliminate the messengers (we Christians did it). You see, religion is like a sword, it has two sides to it, it is the greatest motivator and instigator, the greatest builder and destructor, the greatest source of happiness and sorrow. In the hands of a believer, it can build the greatest art and architecture, but it can also destroy it (you have perfect examples of both). Save your future (youth) before it's too late! You are frustrated with the lack of jobs, future, dogmas, Sharia Laws, honor killings, suicide bombers, the raping of children (under-age marriage?), enslaving of your own mothers, sisters and daughters. The Arab spring is just the tip of the iceberg (albeit in the wrong hands now). You don't hate us, you ENVY us! We're not perfect--you'll get the good, the bad and the ugly all in one package. It's up to you to refine it (we will eventually). By the way, sorry about the liberal Hollywood, rap music, pornography, homosexuality, et al! There are still a "few good men" (and woman) left. Sincerely!

Fanatism: “The MOST DESTRUCTIVE FORCE” (Homer ~400BC)

Academia (The 5th Column): I accuse academia (& irresponsible parents) of: systemically destroying our future; amalgamating our children; holding back the excellent while caring for the mediocre; producing illiterate graduates, raping (mentally and physically) our youth; enriching yourselves at the expense of our taxes (i.e. taxes and student loans); producing over 1.3 million H. S. dropouts yearly of which ~65% become drug addicts, dealers and jail inmates; destroying our moral principles (homosexuality, promiscuousness, pornography) through Marxist indoctrination (I was a teacher too); sending your own children to private/charter schools(to protect them from your own teachings); producing the new Plantation (voters) slaves for the welfare democratic party, and most of all, of crowning your prince (Barack Hussein Obama [or Barry Soetoro]) as King Without A Kingdom, who eliminated the gap between poor and middle class by making us all poor (also known as Socialism).

WHAT’S NEXT? As in Plato’s REPUBLIC (~ 350 BC) after democracy, comes socialism (defined as the majority depends on the minority with its moral decay [homosexuality/drugs/single moms?] Rome is burning!), then after its bankruptcy becomes Anarchy (watch Greece, Mexico, our own “OCCUPY”) which is the breakdown of law and order typical of the republic, and finally, TYRANNY (Iran, Cuba, N. Korea, etc.)

Are you ready to ignore history and be damned to REPEAT it?

WHY AM I AFRAID? because of the Apathy, and ignorance of voters like YOU!, but most important, when I heard our so call “leaders” call us A NATION OF COWARDS, SLOW AND LAZY, APOLOGIZE TO THE WORLD FOR OUR ACTIONS, DAMN AMERICA, NEVER BEEN PROUD OF THIS COUNTRY BEFORE, LIFE IN THE WHITE HOUSE IS HELL, and NO ONE (even the opposition? party) revolted! I’m afraid because our president is succeeding in DIVIDING U.S. creating a race and class warfare just like the SDS manuscript calls for. You don’t know what S.D.S. or the WEATHERMEN is? Ask Bill Ayers (its founder and Obama’s mentor).

Why Am I afraid? I came to this Great Republic in 1961(Chicago), experienced and witnessed discrimination especially against blacks and Spanish. In 50 years I witnessed tremendous progress by some blacks but also a great decay on its majority (welfare dependents) but little if any discrimination by whites. Then suddenly out of nowhere came the savior, the champion of transparency and change, the unifier, the redeemer (of the white’s slave-guilty syndrome)and class warfare(99% vs.1%?), male vs. female divisionism (the pill?) and accusations of discriminations(if you don’t vote for me you are racist!), of seeing this great Country being DIVIDED by our leaders(?).

YES, I’m afraid of you, the idealistic, brainwashed, apathetic young voter ignoring history and repeating your mistake of 2008!

YES, I'm afraid of you the members of the new PLANTATION (welfare) discriminating against your OWN future& Country and repeating your mistake of 2008 just because He's BLACK! Can you see that they (democrats) are the ones enslaving you via DEPENDENCY and promotion of immorality? Don't you know that plantation owners were ALL democrats? That they invented WELFARE to enslave you even more (your pet depends on you right?). That your worst enemy is YOURSELF and your pseudo leaders that use you for their OWN benefit? That over 70% of abortions by Planned Parenthood are black babies? That over 70% OF H. S. dropouts are black? That over 30% of your young are unemployed? That over 50% of inmates are black (you are only~12% of the population)? That over 73% of your moms are single? Do you want me to continue or you get my point? Look up to your REAL leaders, you have plenty and growing!

Hard to believe, but I, like you was young and I knew it all, my parents were ignorant. When I had my 1st child, (~30) I became afraid (for the 1st time) of dying and leaving my children unprotected, became less knowledgeable and my parents smarter. Funny, the older I get, the more I learn, the less I know (Socrates: "the only thing I know is that I know nothing"). I'm a teacher (not professor), engineer and entrepreneur.

DISCRIMINATION (AKA; INFERIORITY COMPLEX)

Discrimination: What is it?.....who practices it?.....will it even end?.....

WHAT IS IT: the dislike-avoidance of anything or anyone what doesn't meet YOUR standards, i.e., crunched box of cereal, homosexuals (if you are normal), voted for HBO only because he's **black**, poor because they are poor, rich because they are rich, Mexicans because they are Mexicans, old because they're old, etc. get it?.....

WHO PRACTICES: every living organism, even plants (yes, they eat by starving other nearby species that are harmful to their own survival).

WILL IT EVER END? Nope!

How do I know what I wrote? Born at start of WWII (World War II), some relatives survived Soviet communism, I survived socialism and migrated to this great capitalist REPUBLIC not knowing the language and with no one to help me (gracias!) but most important to stand in my way, I became member of the now infamous 5% club (pays >70% of the taxes [when it used to be glamorous and enviable to be successful]) without cheating, stealing or killing anyone. You want to join us?

Not easy, but rewarding!

Sincerely
Jose Jimenez

“Only a virtuous people are capable of freedom. As nations become corrupt and vicious, they have more need of masters.”

—Benjamin Franklin

“All tyranny needs to gain a foothold is for people of good conscience to remain silent.”

-Thomas Jefferson

“To preserve our independence, we must not let our rulers load us with perpetual debt...I am for a government rigorously frugal and simple.”

-Thomas Jefferson

Dear Mr. President, I'm Afraid ©2012

Dear Mr. President:

I'm afraid!

I am 75 years old and must confess that for the 2nd time in my life I'm afraid (the first time was in 1955 when I was arrested by the Mexican Police for political activism). I recently felt a chill running through my body and thought of my children, grandchildren, my employees, my small company, my house, my savings, my city, state, my country, and you, our President. Then, I analyzed my fear and concluded that like most fears, it came from a lack of knowledge (the unknown.)

You see Mr. President, we don't know you. That's why we are afraid of you! All we know about you is hear-say, and that mostly by the small dissenting news media, the internet and friends. The mainstream media has kept secret all about you and your background and you are complicit in this. Why?

This is what “We the people,” know about you (all hear-say):

1. You were born of a free-lance drug addicted mother, Stanley Ann Dunham, in Kenya. Your father Barack Obama Sr. was a communist that killed himself in a drunken car crash (after having killed 2 or 3 innocent people in a prior drunken car crash).

2. You were raised by a Muslim Step-Father in Indonesia, where you went to school in a Muslim teaching intern (these being the most important character forming years in any youth).

3. Then, nothing! A big vacuum! No records of high school, friends, school mates, girlfriend or teachers. 10 years of your life are an empty vacuum to “We the People.”

4. We know (hear-say) that your Grandparents raised you after your mother died of an overdose, and that your Grandmother (the last witness of your actual birthplace) died (coincidentally?) the day after you visited her in Hawaii in 2009. This was after the much controversial refusal of the Democratic Governor of Hawaii to show your original birth certificate or other records (hospital, newspaper news, etc.) of your claimed birthplace being in Hawaii in order to validate your right to be president. Then nothing! Why the secrecy?

5. Then we learned (hear-say) that you had used an Indonesian passport to travel to Pakistan in 1981. Is it true? If yes, why?

6. The next thing “We the people” heard is that you went to Occidental college and used the name Barry Soetoro and used drugs (inheritance?) and were a lousy and lazy student (is that why in your last international trip you told the world that we Americans are slow and lazy? We all tend to qualify others through our own experiences). But once again, we saw no scholastic records, and heard nothing from friends, teachers or girlfriends. Nothing again!

7. You claim (hear-say again) that you went and graduated from Yale and Harvard Universities, paid in part by a tax payers scholarship to aid foreign students (I had one too). Why foreign? Weren’t you born in Hawaii? Why the pseudonym of Barry Soetoro? Was it a scam? In all, over a dozen sealed records!

8. Next we heard that your political mentors were (are?) the leaders of SDS (indicted criminals Bill Ayers and Bernardine Dohrn and that the book you claim to have written was actually written by Bill Ayers who is still your friend and mentor to this date.

9. You claim that even after 20 (?) years of attending and befriending Reverend Wright Church, you never subscribed to his Hate America philosophy-preaching’s-beliefs. Yes, the guy that was (is?) your spiritual mentor, the guy that changed the words of our National Anthem from “God Bless America,” to “God Damn America!” That one!

10. You named your buddy of arms to be the U.S. Attorney General (your personal body guard). Yes, the guy that called us “A nation of cowards.”

11. All we know about your wife is that now “For the first time I’m proud of America,” (verbatim, I heard it). And “Life in the white house is hell” (not verbatim). Yes, the one that was prohibited from practicing law, why? (sealed.)

12. You refer to the great U.S. Constitution written over 230 years ago (9-17.1787) and the 10 amendments (Bill of Rights) of 9-25-1789 (A.K.A. the Laws of the land) as “...an antiquated document no longer useful” (not verbatim).

13. You have flooded the government and white house staff with radical Czars of Muslim-Communist ideologies/beliefs. You have trashed the U.S. Constitution by appointing cronies to positions reserved for approval by Congress unless in recession (which they were not).

14. When you took the Oath of Office in 2008 you mumbled the words and used your left hand over your chest (not the right hand over your heart), or was it your wife who did that?

15. As a payback (bribe?) to the unions, and at the expense of millions of shareholders life savings, you used tax payers’ money to buy G. M. and Chrysler. For your private investors (contributors to your campaign) you bailed out Wall Street banks and “invested” our tax dollars in selected solar-battery-electric car companies (Solyndra, Tesla, etc.). All of them heavy contributors to your campaign and the Democratic Party! Wouldn’t this (if proven) fall under Article II, Section 4 of the antiquated document you’re trying to burn? Or you don’t care since Article II, Section 1, Paragraph 5 might take precedence?

16. We see you (I saw you) bowing to foreign royalty, kissing their hand/cheek, contrary to our constitution and tradition. We heard you bashing our great country and apologizing in our name (we don't need your help Mr. President!)

In conclusion, Mr. President, this is how I read you (from hear-say mostly) and I'm not a psychologist, just a 75 year old entrepreneur that started by going barefooted to school (shoes were only used to go to church on Sunday), whose ancestry is traced back to 1382, and who now belongs to the so called 1%.

A. Behind your fake smile, I see a very angry (hateful) man ashamed of his parents, drunken uncle and welfare ridden illegal immigrant aunt.

B. I see a narcissist where the word "I" overcomes the word "we," 20:1.

C. I see a Muslim child brainwashed during the forming years.

D. I see an insecure adult even more afraid than I am.

E. I see a president that hates being president, is overwhelmed by his job, and is frustrated by the lack of understanding (both his and that of others).

F. I see a very, very angry man determined to destroy this great country financially, morally and politically.

G. Rumors abound (internet) that you are the biblical feared anti-Christ. Honestly, are you?

To close it up Mr. President, I wish you no harm. All I wish is that you vanish as suddenly from our lives as you came into them.

Respectfully
Jose Jimenez
5-3-12

P.S. Friends and family have warned me of potential reprisals via I.R.S., Black Panthers, Acorn, SDS, and other groups you belonged during your prior job. Well, so be it. My country comes first!

“If angels were to govern men, neither external nor internal controls on government would be necessary. In framing a government which is to be administered by men over men, the great difficulty lies in this: you must first enable the government to control the governed; and in the next place oblige it to control itself.”

-The Federalist Essays by Alexander Hamilton, John Jay and James Madison

The Federal Education System Has Failed! ©2012

Lately, much noise has been made by Presidential Candidates about the D. O. E. Did it take 20+ years for screams of parents to be heard? By the millions, parents have abandoned the public education system in favor of home, private or charter schooling. Who were the first to switch? The politicians. Who were the second? The public school teachers, then anyone else who can afford it! Public school buildings are empty, for lease or for sale. The few (mostly inner city) have rampant drug, crime, dropout, illiteracy and rape problems and their “students” are candidates for slavery by the new plantation (welfare).

1. Teaching:

a) Present day teachers don't fully teach any subject. They maintain order (babysit) and discipline (control). If order and discipline were taught at home, during class teachers could actually teach and answer questions.

b) The present system leaves no time to teach the complete curriculum. You could say our current system cheats the children, parents and the Nation. (Wall Street Journal Article of 1-20-2-12, P. A-5, Education).

c) Most parents push their children to achieve academic excellence. Shouldn't our education system require the same? The present grading system (alpha) rates the highest scores (A+, A, A-) and the rest below as “B-F's.” The kids are

proud to say “I got an A” when in actuality they might have only had 90% of the answers accurate. What happens if the highest score is 60%? (See the S.A.T. scores). The present system holds back the smart and pushes forward the others to create a homogeneous class of mediocrities. While we are all similar in form (body parts), we are not the same in mind. We are individuals (not herds). The world needs laborers as much as professionals, so why try to get everyone a B.S.M.N. (master of nothing)? For colleges financial benefits?

2) Bussing:

a) What is the ultimate (covert) goal of the bussing program? I believe it is racial, class and cultural integration? Has it worked? Again, we are not all the same! We pride ourselves on being economically, racially and culturally diverse in America. Is the bussing program communist indoctrination in disguise?

b) What is the total time wasted nationwide by students that are bussed? (I read up to 4 hours a day). This time could be much better spent by students actually learning something. Many kids have to awaken when they arrive at school or home. The traveling time alone is over 52,000,000 (million) hours per year.

c) What is the total cost of the school bussing system nationwide? (In actual billings, including drivers, mechanics, administrator salaries and benefits; the cost of equipment, maintenance facilities and insurance; the cost of fuel and of

carbon footprint and global warming; the cost of union dues, etc.). These monies could be better spent to educate our children.

d) The bussing program creates wasteful federal/state governmental departments to channel money for special projects (pets), ideologies (indoctrination), payback to lobbyists (bus manufacturers) and unions, and maybe even politicians. Again, is the bussing program communist indoctrination in disguise?

e) Think about who benefits from the bussing program? Special interest groups? Who Suffers? Children, taxpayers and our future generations, that's who!

3. School Boards:

Charter schools (which are semi self-governed), private schools (100% self-governed) and home schooling are, in reverse order, the most efficient and economical methods-correct? (Haven't you heard of 16 year olds graduating with a Ph.D.?) Shouldn't our current schools be self-governed by local parents of each school?

4. Higher Education:

a) Who benefits the most from long curriculums at colleges? Why?

b) Why are universities producing (after 5 years of tuition and expenses for ~100K+) graduates in A.A. M.N (Apprentices of All and Masters of None)? Most B.S.

graduates are rated as unqualified labor by the industry. Why hire them when we have access to millions of illegal immigrants for less money, and a few of them will ever claim/qualify for Social Security or Medicare (Obama-care) benefits?

5. Some statistics to prove my points (sources: various governmental reports):

A. BUSSING:

1. Time spend by bussed children: ~2 hours/day (some ½ to 4 hours) Ave. x 26,000,000 bussed children=~52,000,000 man- hours/DAY!
2. Bussing FUEL cost (diesel):~\$3,000,000,000.00 (3 billion).
3. Bussing all others expenses (drivers, unions, benefits, maintenance, equipment, etc.): ~\$17,000,000,000.00 (17 billion).
4. Total cost of bussing children (not including the 52,000,000 man hours wasted):~\$20,000,000,000.00 (20 billion), plus environmental damage.

B. SCHOOL LUNCHES: What's wrong w/mom & pop making lunch for their kids (mine did it for all 8 of us!) unless we're already a COMMUNIST country where the children belong to the State!...NO financial data yet.

C. **FEDERAL COST OF EDUCATION (STATE'S NOT INCLUDED):**

1) As a % of GDP: 5.9% or $\sim > \$500,000,000,000.0$ (billion), that's right $\frac{1}{2}$ a TRILLION \$!

2) As a % of Federal government's budget: $\sim 15.3\%$!

3) States cost: no data yet but usually is $\sim 92\%$ (?) Fed. Gov. reimburses $\sim 8\%$ (black mail?) of cost to the states, so if federal expenditures is $\$1/2$ trillion, then states $\sim > \$5$ trillion (?)

D. **CURRICULUM** (Elementary and H.S. combined):

1. ~ 6 subjects/day (language, history, geography, science, sociology, biology, P.E.)/ ~ 5 hours/Day
= ~ 42 minutes/subject less settling down, – interruptions;
 ~ 35 MINUTES actual TEACHING/subject!

2. Time spent by children learning (?) Math.: 16%;
language: 17%; science: 14%; sociology: 12%;
TECHNOLOGY: 3%! (No wonder Germany and China get all the TECHNICAL jobs!)

E. **H.S. DROP OUTS:**

1. $\sim 1,200,000$ children per YEAR.

2. Ratio of H.S. drop out vs. CONVICTS (in jail): 65% of drop outs become CONVICTS!

3. Illiterate students at grade 8 (can't read/write at 8th grade level): ~68%!!! (~ Same as dropout rate, are they the potential future convicts?)

F. PUBLIC vs. OTHER schools:

PUBLIC vs. OTHER SCHOOLS:	# of STUDENTS
Public	~26,000,000,000 (26 Billion)
Home School	~1,500,000,000 (1.5 Billion)
Private School	~5,000,000,000 (5 Billion)
Charter School	~4,000,000,000 (4 Billion)
Public	~9%
Home School	0%
Private School	1%
Charter School	(no data)

MOVE ON TO COLLEGE	
Public	~48%
Home School	~98%
Private School	~93%
Charter School	no data

COST/CHILD PER YR	
Public	~\$12,000
Home School	NONE
Private School	~\$8500.00
Charter School	~\$7,000.00

% TEACHERS TO TOTAL PERSONNEL	
Public	~48%
Home School	100%
Private School	~83%
Charter School	~76%

6. A better system – Germany as a Role Model:

Germany has the best system to date: All students graduating from the gymnasium (high school and vocational school) learn (both to write and speak) 3 languages, and have learned at least 1 trade (of their choice) as apprentices at local businesses (carpentry, mechanics, construction, clerical, bio-medics, etc.) before entering university for a specific career. Our country/world needs more than just our current bachelorette programs (Masters of None). Imagine if our children could become an excellent carpenter/bricklayer/mechanic at age 22 or an engineer/architect/medic at age 25? All without requiring a 3 year scholarship from my business! Do you ever wonder why Germany is the most productive country in the world (man-hour versus G.D.P.)?

7. Unions:

They were necessary during the industrial revolution-thank you! Now, they are a selfish political arm of socio-communist ideology responsible for the destruction of our industrial base (steel, auto, etc.) They bankrupt states,

countries (Euro zone) and most important, have destroyed our FUTURE: Education.

8. Classical Music:

The Greeks (Plato's Republic) recognized that soft rhythm music enhances the spirit and behavior and that rhythmic noise (rap music) destroys the children's self-esteem, creativity and respect for others. My oldest son (now 45) was hyperactive and took on playing loud drums (against my will), then dropped out of high school and I had to rescue him from a drug overdose and bail him out of jail (see item E.2 above). My second oldest son took guitar and piano, graduated from high school with honors, graduated from college with a B. S. in chemical engineering and now has a family and enviable financial success. As soon as my oldest son had his first child, he became a Conservative. Congratulations Hijo!

9. Hyperactivity:

Stop! You are killing our future with downers! There is a difference between hyperactivity and ADD! Most great innovators (inventors, entrepreneurs, leaders, generals, and some criminals) were hyperactive children. I was one. What do you want: a herd easy to control? Kids are living and growing organisms-they need challenges! Everything is a new experience to them. You, the teachers know it all (do you?)!

Conclusions/Recommendations

1. Institute one subject of teaching per day for K-5 (the hardest part is to keep them focused!) This should include reading comprehension, writing (English), math and sciences. In high school, teach one subject per week (they know how to read and comprehend by now. Don't they?) Periodically (once a week?) have a review session of previously taught subjects (refresher). By example: you (teachers) finish teaching the entire trimester of math, English, etc. and now you're teaching geography. Revisit the last trimester's math and English highlights for 10 minutes daily. They'll remember it for life! Begin trade learning with local businesses in their junior (11th) year.

2. Teachers should only guide the students and answer questions not in books and give assignments (administrators of learning), thus creating a self-taught society (do not babysit them). Help the best students become better (passing grades) and make the slowest students repeat grades (Darwin's selection of the species-sorry but that's reality). Turn over the extra teachers and failing students to the federal government for placement in bureaucratic jobs (i.e. welfare disguised), or just fire them!

3. Reduce college curriculum to 5 specific subjects related to the career field selected, teach (guide) on one subject/bimester (math, science, biology, English, law, etc.) for a maximum of 3 years (just like private universities like the University of Phoenix do). Require a minimum 70% G.P.A. or better or repeat the course (one chance to repeat

only). After that the student is dismissed (goes to trade school). The university title would then be a B.S.S. (Bachelors of Specific Subject) with a minimum 1 year of working in the subject field. Students could continue their education to earn the title of M.S.S. (Masters of Specific Subject). This would include two years maximum in the specific subject, and teach only that subject. Again, they must achieve a minimum G.P.A. of 70% or repeat or dismiss (to trade school). Those achieving their M. S. S. could continue on to the title of D.S.S (Doctors of Specific Subject). This would include another 2 years in the specific subject, plus one final year working on the subject with a partner company (as an intern). They should have a minimum 70% G.P.A. or be made to repeat or stay in M.S.S. (technician).

4. Eliminate school bussing except in rural areas. In cities, it is the parents/students responsibility to get there.

5. Institute (by state, not federal) work apprentice programs with local businesses (no subsidized). Companies need to invest in their future employees. This also increases the size of the tax paying class.

Sincerely,

Jose Jimenez

“A primary object...should be the education of our youth in the science of government. In a republic, what species of knowledge can be equally important? And what duty more pressing...than communicating it to those who are to be the future guardians of the liberties of the country?” -George Washington

“A well-instructed people alone can be permanently a free people.” -James Madison

TIGER PARENTS VS. D. O. E. & UNIONS ©2012

Recently much polemic has been caused by the book by Amy Chua **Battle Hymn of the Tiger Mom** and by her latest article in the Wall Street Journal titled **Tiger Mom’s Long-Distance Cub**. I recently read the WJS article and was inspired to provide some thoughts on the benefits of having “Tiger Parents.” I will also show how some of the precepts of tiger-parenting can be applied toward the reformation and improvement of the current education system in the United States.

Let me first provide you with some personal insight from my own life. I was married to a “Lamb (liberal) Mother” and had four children. I later remarried a “Tiger Mom” and had two more children. The youngest are products of two “Tiger” parents (my wife is Chinese and has two master’s degrees, I have a PH.D). The other children (ages 32-44) are the by-product of a tiger father and a very liberal mother. You might say that I’m a little bit biased due to the results of the marriages. Only one out of my first four children is a

successful graduate (chemical engineer), while both children from my second marriage are in the top 1% of school. They also have great success in their extra-curricular activities (piano, ballet, drama, Chinese and Spanish classes and singing lessons). My wife and I don't push them to study (we pull them by example); they are very sure of themselves and we trust them 100% to always do their best. My personal experience in raising children speaks for itself.

I think the American education system should teach children reading, comprehension in writing and language until they master it (if you don't comprehend one word in a sentence, you don't know the whole sentence!) Then teach them geography, then history, etc. When I was teaching, my technique was to make the better students the BEST, and the rest had to be dragged along. I'm sorry if this is not politically correct, but that's life. I had about a 50% success ratio (~20% of 100%, 20% of 90%, 10% with 80% and the rest were below an 80% G.P.A.). Keep in mind we also need bricklayers, mechanics, policemen, firefighters, carpenters gardeners, etc., don't we?

In my own business, we interview ~10% of all applicants for electrical engineering and hire ~10% of these or approximately 1% of all applicants. From some university graduates, we can hardly understand their handwriting (we request a handwritten "why should we hire you" memo). Many of them (~99%) do not know OHM's Law (the bible of electrical engineering), basic work equations or formulas and do not have logical/analytical/inventive minds or desires. So for the other 2% (of 100% applicants) we offer them

technician positions, but they expect an engineer's salary. They do not realize that we are actually offering them a scholarship (salary, benefits, Social Security, Medicare taxes and health insurance, etc.) with pay, and most important, contributing our staff's time to teach them what they paid the university to do. In my > 40 years in business I learned that the first year is all an investment year on new employees, the second year is a break-even year and after the third year, the company makes a profit from their productivity (yes, we profit from our employees).

Think about the following:

1. **Teaching:**

a) Present day teachers can't teach all subjects 100%. They maintain order (babysit) and discipline (control). If order and discipline were taught at home (by tiger parents), during class teachers could actually teach and answer questions.

b) The present system leaves no time to teach the complete curriculum. You could say our current system cheats the children and the parents. (Wall Street Journal, 1/20/2012, P. A-5 Education)

c) If cows produce more and better milk, hens better eggs and plants grow better and faster with classical music in the background, why not in the classroom?

d) Tiger parents pull their children to achieve academic excellence. Shouldn't our education system require the

same? The present grading system (alpha) hides the reality of life. An “A” could be anything between 90 and 100% correct. What is wrong with 97 for 97% correct and 60 for 60% correct? The present system holds back the smart and squeezes the others to create a homogeneous class of mediocrities. While we are all similar in form (body parts), we are not the same in mind. We are individuals (not herds). The world needs laborers as much as professionals, so why try to push forward students who cannot keep up intellectually?

I also believe that there are several other problems with the American education system, and other reform ideas will be outlined in a second letter titled “The Federal Education System Has Failed.”

Jose Jimenez
5-5-12

IRONY: Hussein Barack Obama was elected just because he is BLACK (blacks discriminated against Hilary {thanks} and McCain {Rino} hoping that a black president would get them out of the New Plantation! **WRONG!** He isn’t African-American or a descendant of slaves! He is just another opportunistic Socialist Muslim politician not familiar with the Black suffering.

WHO CREATES JOBS?

The President claims GOVERNMENT creates jobs.

The Republicans claim small INDUSTRY creates jobs.

They're both WRONG! Why?

1. What made this country the richest, strongest, most generous, most advanced since the Egyptian, Greek and Roman empires? The answer is that this great COUNTRY became the GREATEST by the BUYING POWER of the MIDDLE CLASS! AKA: CONSUMERISM!

2. The President (being a typical ACADEMIA) is essentially destroying job creation by implementing what the Dept. of EDUCATION (and the LIBERAL/SOCIALIST teachers) has been practicing for last 30 years—the overt and covert implementation of SOCIALISM.

A. If you can't educate the NOT so smart to become smart, then HOLD BACK the SMART to have EQUALITY (everyone is equally dumb).

B. If you can't bring the POOR into the MIDDLE class, bring the MIDDLE CLASS down to the POOR to create EQUALITY and SOCIAL JUSTICE. EXAMPLE: The middle class lost ~50% of their retirement savings and 50% of their home equity.

C. Make the RICH richer (through bail outs, special loans, billions to unproven technologies, etc., by making the income gap bigger so the MIDDLE class can't catch up with them.

SO WHO CREATES JOBS?

- A. **The POOR?** (~25% of the population and GROWING) only purchase what they must to survive.
- B. **The RICH?** (~10% of the population) have no BUYING power except for airplanes, yachts, expensive homes/villas, luxury cars, etc., but how many?
- C. **The STIMULUS?** The bailed-out auto industry makes lots of cars (most of them in storage lots); the bailed out BANKS give millions in BONUSES to a few while LAYING OFF clerks; the bailed out SOLAR and ELECTRIC CAR SCAMS go bankrupt within months while making products that NO one WANTS.

AGAIN, who CREATE JOBS?

This great COUNTRY became the GREATEST by the BUYING POWER of the MIDDLE CLASS! AKA: CONSUMERISM! Millions of dish washers, dryers, cars, homes, bicycles, pants, skirts, shampoo, shoes, paint, doors, windows, toys, popcorn, etc., purchased & sold every day!

So how do you cripple this great COUNTRY? DESTROY the MIDDLE CLASS (Mr. President, I read your **BOOK!**)

GOVERNMENTS CAN'T LEGISLATE MORALS

Morals are inherited, then sucked after birth. They are reinforced by parents and nurtured by society, including religion.

Governments have NO control over morals (i.e. Occupiers, congress, lobbyist itself).

DRUG use is by choice, addiction is by necessity.

The Nation loses ~ONE TRILLION dollars /year to the black market headed by criminals (>50,000 killed in Mexico alone) and protected by legislation (and some legislators on the take). And our JAILS wouldn't have ~60% of H.S. drop outs. And our Nation wouldn't spend~15% of its GDP in SECURITY (including HLS).

If drugs were legalized and distributed at COST by authorized private charity organizations (no governments involved), the illegal drug trade would die of natural causes and or become like alcoholic beverages and cigarettes (consumed legally by choice).

Would a Constitutional Amendment be required to legalize it? If, yes while at it, a) enact Flat Fair Sales Tax (eliminate #16), b) eliminate EPA (destroying small business), c) D.O.Ed. (destroying our children), d) D.O.A. (destroying our agriculture) and e) D.O.En. (Solyndra, electric cars, wind mills, biofuels)
